DIRECT-FED MICROBIALS FOR HEALTHY CALVES

Historically, producers have used milk replacers containing sub-therapeutic levels of antibiotics. Recently this practice is being scrutinized citing the potential for resistant strains of bacteria, the higher cost of milk replacers, as well as noting the antibiotic levels are ineffective in preventing disease as reasons to discontinue this practice. Recommendations have been for producers to replace the use of sub-therapeutic antibiotics with proven practices such as good colostrum management, bio-security protocols, feeding coccidiostats and direct-fed microbials.

CONVERT™ Calf Products are a special blend of naturally occurring direct-fed microorganisms (*Enterococcus faecium*, *Lactobacillus acidophilus* and *Bifidobacterium*), unique and proprietary L-form *Lactobacillus*, microbial sugars, enzymes and specialized proteins. These ingredients provide essential management tools for production and environmentally related challenges. These products do not contain antibiotics and are proven to be safe and effective.

RESEARCH

Oklahoma State University, Purdue University

USE DIRECTIONS

CONVERT Day One Gel (at birth) 5-15cc (challenge) 15cc

CONVERT Ranch Pack 200D (Day 1-21) ½ scoop (challenge) 4 scoops

CONVERT Ranch Pack 1000D (Day 1-21) ½ scoop (challenge) 4 scoops

During periods of challenge, increase daily dose to Challenge level for 1 to 2 feedings, evaluate calf response, then return to normal dose rate. Keep product at or near room temperature.

Recommended use program: one dose of CONVERT Day One Gel or Bolus at birth, followed by Convert Ranch Pack once a day for 21 days.

PACKAGING

CONVERT Day One Gel – 60cc tube / 6 per box (#11005)

CONVERT Ranch Pack 200 Dose – 2.5 lb package (#3525)

CONVERT Ranch Pack 1000 Dose – 12.5 lb package (#3500)

CONVERT Calf Bolus – 40 / jar (#11006) or 10 Bolus Foil Pack (#11007)

STABILITY

Stable for two years. Store in cool, dry place.

INGREDIENTS

CONVERT Ranch Pack: Dried Whey, Dextrose, Dried egg product, Silicon Dioxide, Potassium iodide, Dried *Enterococcus faecium* fermentation product, Dried *Lactobacillus acidophilus* fermentation product, and Dried *Bifidobacterium longum* fermentation product. Dried *Bifidobacterium thermophilum* fermentation product, *Saccharomyces cerevisiae*, Sugars, Lactic acid, Citric acid, Acetic acid, and Benzoic acid. **CONVERT Gel:** Soy oil, dried egg product, silicon dioxide, dried *Aspergillus oryzae* fermentation extract, dried *Trichoderma reesei* fermentation extract, dried *Candida cylindracea* (*C. rugosa*) fermentation extract, dried *Aspergillus niger* fermentation extract, potassium iodide, dried *Bacillus subtilis* fermentation extract, lactic acid, acetic acid, *Saccharomyces cerevisiae* (active dry yeast), dried *Enterococcus faecium* fermentation product, dried *Lactobacillus acidophilus* fermentation product, dried *Bifidobacterium longum* fermentation product. **CONVERT Bolus:** Dried egg product, dextrose, silicon dioxide, maltodextrin, potassium iodide, *Enterococcus faecium* fermentation product, *Bacillus subtilis*, *Lactobacillus acidophilus* fermentation product, *Bifidobacterium longum* fermentation product, citric acid, sugars, *Saccharomyces cerevisiae*, benzoic acid, lactic acid, and acetic acid.

GUARANTEED ANALYSIS

CONVERT Day One Gel and Bolus: Total Lactic Acid Bacteria (min.) 5 billion CFU/per 15cc/ bolus

CONVERT Ranch Pack 200 Dose and 1000 Dose: Total Lactic Acid Bacteria (min.) 50 billion CFU/pound
