## Insights

Brian Kelroy, Director of Consulting and Profit Strategies, CentralStar Cooperative

**7H015807 GEORGE MILLER** is one of the industry's most exciting April releases and was bred in Wisconsin by Larson Acres. GEORGE MILLER ranks among the highest of the breed in every major index. He provides elite health and fitness traits, while not sacrificing production and type. GEORGE MILLER will sire profitable cows that will stay in your herd for many generations.

**14H015971 MOONWALKER** is a bull that spells balance. He combines high production traits of protein, fat and milk with fitness traits designed to sire healthy profitable animals. MOONWALKER daughters will be moderate in frame, have ideal set to their leg, and strong udder attachments. Incorporating MOONWALKER in your genetic selection will rapidly increase genetic progress in your future generations.

**NxGEN sires top the charts for many sought-after production and health traits!**

*If you are not yet using the NxGEN program, ask your CentralStar team about enrolling to take advantage of maximizing your return on genetic investment.*

# MASTITISRESISTANTPRO™

Sires that excel in multiple indicators of mastitis resistance are more likely to deliver genetic improvement. Visit [www.selectsires.com](http://www.selectsires.com) or talk to your CentralStar team for a complete list.

## calving • high SCC • sick • off-feed • low rumination

# BIOFRESH BOLUS

Ideal for fresh cows, BioFresh Bolus supplies critical vitamins and minerals to supplement a cow's variable intake, and aids in immune function by providing cell-wall-deficient bacteria, microbial sugars, and specialized proteins. In combination, these ingredients work well on cows that are just fresh, off-feed, or sick, and university research confirms its impact on SCC.

Herds using activity systems are monitoring rumination alerts and providing "low rumination alert" cows with two BioFresh Boluses. Herds following this protocol report improved rumination within 24 hours.

BioFresh Bolus will also help retain more milk and assist in reducing SCC as proven by the Southern Illinois University research.

**SPECIAL BUY 5 • GET 1 FREE**  
6/1/22 - 7/31/22

**WARNING:** (1) Scouring calves treated with antibiotics gave 1,086 pounds less milk during their first lactation.<sup>1</sup> (2) Calves treated for pneumonia or scours are more likely to be culled or leave the herd early.<sup>2</sup> (3) Calves treated for scours are almost three times more likely to calve after 30 months.<sup>2</sup> (4) Higher pre-weaning average daily gain positively impacts first-lactation milk yield.<sup>1</sup>

[boosts immune function • promotes appetite • supplies live, viable, naturally-occurring organisms (probiotics) • all natural • antibiotic free]

**Protect your herd's future. Don't let your calves have a bad day.**

Available in gel, bolus and powder form.

**On the cover:** Horsens-SSI 3103 12374-ET (VG-85-VG-MS) is a second-lactation 250HO14134 RENEGADE daughter at Destiny Farms, Marshfield, Wis. Learn more about RENEGADE and other sires on the Select Sires bull app. It's perfect for quick, on-farm searches. The app has also made significant improvements, recently, making it even more useful as a herd-management tool.

Products sold by Select Sires Inc. or its affiliates to a buyer shall not be used other than as authorized by the terms and conditions in the sales invoice. Each conventionally processed semen straw (not sex sorted) shall be used only for insemination of a female bovine. ALL OTHER USES OF BOVINE SEMEN FROM SELECT SIRES INC. AND ITS AFFILIATES ARE STRICTLY PROHIBITED WITHOUT THE PRIOR WRITTEN CONSENT OF SELECT SIRES INC. INCLUDING (WITHOUT LIMITATION) GENOTYPING, SEQUENCING, CLONING, GENETIC ANALYSIS, GENETIC MANIPULATION OR FOR RESEARCH. Select Sires Inc., its member cooperatives, its agents or employees cannot and do not guarantee the conception rate, gender, quality or productivity to be obtained in connection with the use of its products or recommended techniques. It makes no warranties of any kind whatsoever, expressed or implied, which extend beyond the description of its products and hereby disclaims all warranties of merchantability and fitness for a particular purpose. In the unlikely event that any of our products shall be proven to be defective, damages resulting from their use shall exclude consequential damages and be limited to the purchase price of the product. All *gender* SELECTED semen is processed using Ultraplus™ technology. Ultraplus is a trademark of Inguran LLC. ™*gender* SELECTED semen is a trademark of Select Sires Inc. ©Wellness Trait Index, WTS, Dairy Wellness Profit Index, DWP\$, and CLARIFIDE are registered trademarks

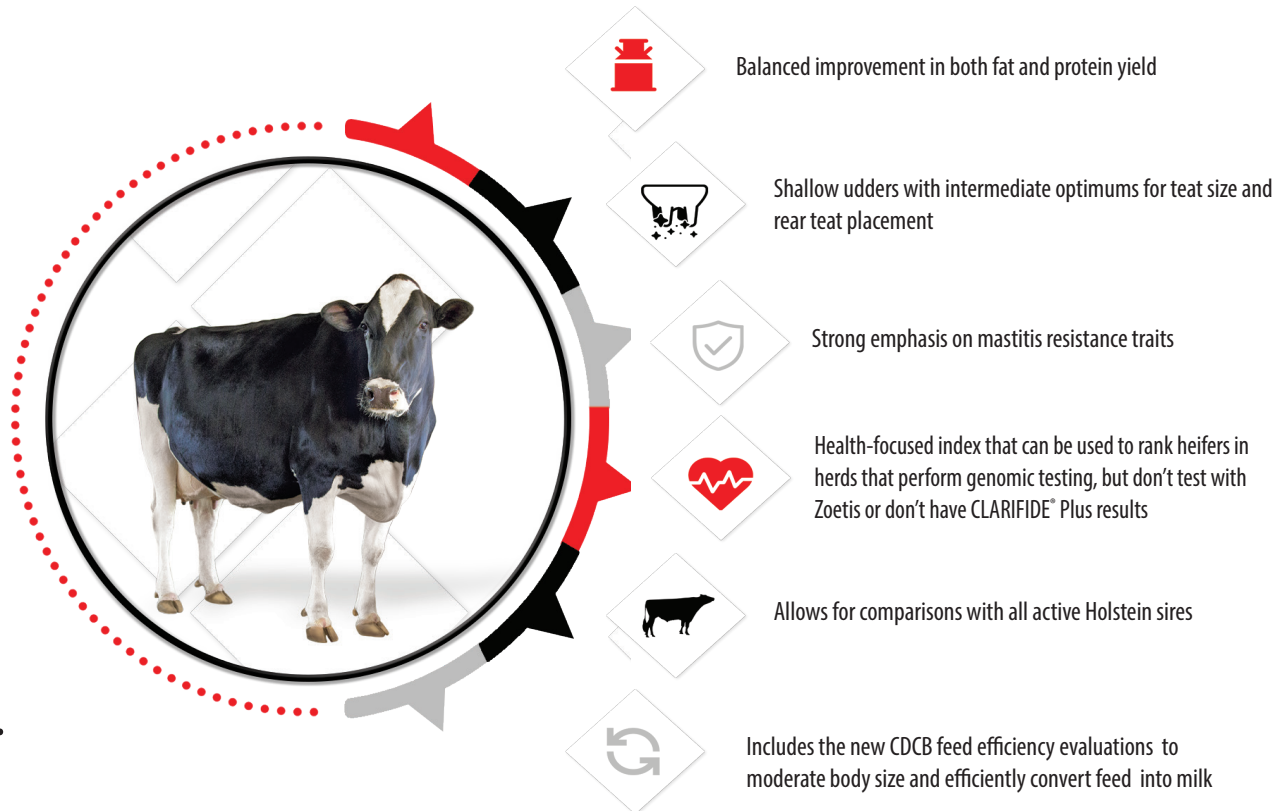

of Zoetis Inc., its affiliates and/or its licensors. ™Showcase, GForce, Herd Health Profit Dollars (HHP\$), and Mastitis ResistantPRO are trademarks of Select Sires, Inc. ©NxGEN is a registered trademark of Select Sires Inc. ©TPI is a registered trademark of Holstein Association USA. Limitations and Conditions of Sale: *gender* SELECTED semen shall be used only for the single insemination of one female bovine during single ovulation with the intent to produce a single offspring unless specifically approved on an individual customer basis by Sexing Technologies (ST) in writing. ST agrees, however, that Select Sires' customers may use 4,000,000 concentration straws for superovulation or IVF so long as the service provider or the end-user is authorized for such use under an independent license (other than this agreement) by XY. AS A CONDITION OF PURCHASING *gender* SELECTED SEMEN, THE PURCHASER AGREES THAT *gender* SELECTED SEMEN WILL NOT BE REVERSE SORTED OR RESORTED UNLESS SPECIFICALLY PERMITTED, IN ADVANCE, ON A CASE-BY-CASE BASIS BY SELECT SIRES INC. IN WRITING. All other uses of *gender* SELECTED semen from Select Sires Inc. and its affiliates are strictly prohibited without the prior written consent of Select Sires Inc. including (without limitation) genotyping, sequencing, cloning, genetic analysis, genetic manipulation or for research. Select Sires intends to monitor the use of *gender* SELECTED semen and vigorously enforce these restrictions on use.

# HHP\$™

Herd Health Profit Dollars™ is a new tool to help producers create healthy, longer-living cattle in their herds. Emphasis on components, mastitis resistance, udder depth, and teat size and placement are a few traits that are included to help boost your herd's profitability!

A better cow for a better future.

# Beef x Dairy SIREs

Choosing the right beef genetics to crossbreed to Holsteins and Jerseys can significantly impact your herd's bottom line.

Scan the QR code for the most current offering of elite terminal beef bulls that excel for calving ease, growth performance, carcass merit, and elite fertility to maximize reproductive performance.

[www.mycentralstar.com/beef-on-dairy-sires](http://www.mycentralstar.com/beef-on-dairy-sires)

## IT'S TIME...

to know she's **still** pregnant with routine milk pregnancy testing before dry off.

### Time to Rest

Least invasive method to confirm pregnancy. Promotes resting time which is associated with improved production. Research shows one hour of lost resting time leads to approximately 3.5 lbs. less milk/cow/day.

### Saves Time

Conduct through routine DHI samples or send samples direct. Eliminates time and labor to sort, restrain and palpate animals.

### Now is the Time

At 98% accurate, the milk pregnancy test identifies pregnancy status as early as 28-days post breeding until dry off.

## Pedigree Sorts - Proven & GForce

Genetic diversity in the Holstein breed continues to dwindle, creating a greater risk for inbreeding in your herd when pedigree makeup is overlooked. Below are lists that are free of popular bloodlines and can be a good starting point to avoid inbreeding during genetic selection. To gain the greatest advantage in genetic selection, work with a CentralStar Genetic Consultant to accelerate your ROI.

**Round-the-clock monitoring  
of rumination, eating, resting,  
temperature and activity**

**Nutrition Alerts - NEW**

- Predicts two out of three cows that will have transition issues after calving, weeks prior in the dry period.
- Helps identify under-performing cows in rumination/eating time.
- Heart-stress-alerts inform of groups needing attention.

**Health Alerts**

- Provides very early detection of health issues.
- Gives severity of issue to determine best solution.
- Ongoing insights on the recovery of cow health.

**Fertility Alerts**

- Accurately identifies which cows are in heat.
- Provides information on when to precisely breed.
- Identifies anovular and cystic cows.
